

# FREMONT

## ROOFING COMPANY

Here Today, Here Tomorrow, Here in the Future.

As a locally owned and operated company, we're not just serving your community—we're a part of it.

We want the best for you. After last year's hail, there are a lot of companies you've never heard of trying to do work on your home.

Here are some **red flags** to look for when hiring a contractor:

### Lack of Proper Insurance

Insurance protects you from liability in case of accidents or damage.

### No Written Contract

Outlining scope, materials, timeline, and costs makes sure you are both on the same page

### No Out of Pocket Costs

They will skimp on workmanship or not do all the work on the scope. Which could cost you even more money than you "saved"

### No Local Experience

Different regions have different building codes and standards. Make sure your contractor knows them.

### High Pressure Sales Tactics

High-pressure tactics are often used to close deals before you can notice red flags. It's a big decision - take your time.

### No Written Warranty

A warranty guarantees that the contractor will address any issues that arise after the project is completed.

When others leave you stranded, you can count on
